## WORK EXPERIENCE

### React Js Developer -Intern
Bluekode Digital, Coimbatore.

*06/2024 - Present*

*Achievements/Tasks*

- I am gaining practical experience in developing responsive web applications using **React.js**, with a focus on **component-based architecture**, **state management**, and **API integration**.
- Through my work, I contribute to the creation of efficient, user-friendly web applications, collaborating with a team of experienced developers.
- My responsibilities include designing, implementing, and testing React components, which has enhanced my teamwork and communication skills.
- I also actively engage in identifying and resolving complex technical issues, demonstrating strong **problem-solving** and **debugging** abilities to ensure the optimal quality and performance of the applications.

### Associate Software Engineer
Joy IT Solutions ,Bangalore

*03/2022 - 06/2023*

*Achievements/Tasks*

- Worked in Microsoft **Dynamics 365 CRM**, Power Automate Web API,C# .Net Framework, Plugins.
- Designed and developed application **scripts** for test scenarios.
- Used ASP.NET, **JavaScript** and SQL Server to develop new applications.
- Created **Canvas and Model-driven apps**. Updated technical documentation, product specifications and technical training materials.
- Performed **functional testing** , **regression testing** , and **user acceptance testing (UAT)** to ensure software met user requirements.
- Participated in **requirement analysis meetings** to understand project needs and identify potential testing challenges early in the development lifecycle.
